# NISSAN ALMERA

THE NEXT GENERATION  
**NISSAN**  
**ALMERA**

FOR THE NEXT GENERATION YOU

THE NEXT GENERATION NISSAN ALMERA  
THE SPACIOUS SEDAN FOR THOSE WHO WANT TO  
**LIVE LARGE**

Everything you thought you knew about owning a small sedan is about to change. No longer will smaller sedans stand in the shadow of their larger relatives. No longer will you have to compromise style for space, form for function, technology for affordability. Never again will you have to choose between performance and practicality, or pay a premium to transport your family around in the style, safety and comfort they deserve. Now you can have it all. Introducing the new Nissan ALMERA.

## SPACIOUS

comfort

Welcome to a big new day, where generous legroom is a given, where headroom is never in short supply, and where even the tallest can stretch out in comfort. Thanks to the revolutionary design of the Nissan ALMERA, owners can enjoy class-defying comfort and versatility in a beautifully compact package. The Nissan ALMERA provides the perfect balance of superior space for driver, passengers and luggage, all in one small sedan that's truly big enough for everyone. Think premium space minus the premium price tag.

# PERFORMANCE AND ECONOMY

A smaller size certainly doesn't mean paltry performance. The Nissan ALMERA is powered by an impressive 1.5 litre petrol engine available in manual and automatic transmission, delivering 73kW of power with 134Nm of torque – enough to get you from A to B in no time. And while the Nissan ALMERA feels like a big car on the inside, it still offers small sedan efficiency. How does 6.3 litres per 100km (manual transmission mode) or 550km\* on a single tank sound? When it comes to performance and outstanding fuel economy, the Nissan ALMERA really is the intelligent choice for those looking for big value for money.

#### Nissan's commitment to the environment

Nissan's environmental philosophy embraces people, vehicles and nature. In the pursuit of a sustainable mobile society, the Nissan Green Program aims to reduce the environmental impact of Nissan vehicles at every stage of the vehicle life cycle, while corporate activities address environmental challenges.

\* Actual fuel consumption will vary depending on driving conditions, driver behaviour, the condition of your vehicle and the accessories fitted.

# INTERIOR

Step inside and the Nissan ALMERA delivers confident and modern sophistication that is practical, ergonomic, functional and aesthetically pleasing. The intelligently designed cabin layout puts all the controls you need right at your fingertips, from audio control to boot release, powered mirror control to remote central locking.

An ample glove compartment, centre console, door pockets and more provide storage space that is nothing short of abundant, along with convenient compartments for your MP3 and cellphone.

High quality finishes compliment the vehicle's stylish design, while easy-to-read dials keep the driver up to date at all times. The Nissan ALMERA also sports a rear centre armrest with cupholders, rear fan and adjustable rear head rests. And thanks to the Nissan ALMERA'S advanced design, wind and road noises are dramatically reduced within the cabin, even at speed.

The Nissan ALMERA'S 4-speaker audio system features Bluetooth audio streaming, MP3 and USB connectivity so you can enjoy your tunes just the way you like them. And with handsfree Bluetooth capability, together with steering wheel audio controls, you're safe and in complete control wherever you drive. Now that sounds good.

# THE FREEDOM

TO EXPLORE NEW DESTINATIONS

# TECHNOLOGY

The Nissan ALMERA is also big on the latest technology, all designed to make your life easier, safer and more enjoyable.

**MULTI-FUNCTION DRIVE COMPUTER** puts all the information you need right where you need it: in plain sight on the fine vision instrument display.

## FUEL ECONOMY

Up to the second info on how your fuel consumption is performing.

## DRIVING RANGE

Takes the guesswork out of the distance remaining until you need to fill up.

## EYES IN THE BACK OF YOUR HEAD

Reversing is a breeze with rear parking sensors that ensure even the tightest parking spots become a precision exercise.

## BIG ON BOOT SPACE

The boot space in the Nissan ALMERA is astonishingly generous. A full 490 litres of capacity allows you to load up with room to spare – shopping, sporting events or holidays all become pleasure cruises. Just load up and away you go.

# SAFETY

The Nissan ALMERA comes with an impressive array of safety features that are designed to keep you and your passengers safe and sound in virtually all conditions.

## A HELPING HAND

**The Anti-lock Braking System (ABS)** prevents wheel lockup during heavy braking which allows the driver to continue steering safely.

**Electronic Brake-force Distribution (EBD)** sends extra energy to the rear brakes if and when it senses additional weight in the back of the vehicle, increasing stopping power and reducing stopping distance.

## Forewarned is forearmed

Halogen headlights ensure excellent visibility for increased open-road safety, allowing you to see what's ahead better than ever before.

## MAXIMISING PROTECTION

When a collision is unavoidable, additional technology built into the Nissan ALMERA helps reduce injuries and limit damage as much as possible.

**Zone Body Construction** features advanced safety technology that includes a clearly defined crushable zone to absorb and disperse impacts, with a high-strength cabin safety zone to maximise passenger protection.

Driver and passenger **SRS** (Supplemental Restraint System) airbags deploy automatically in the event of severe frontal impact, reducing the risk of injury.

In addition, **ISOFIX** child restraint anchorage points, together with 3-point ELR seatbelts for all passengers, ensure the Nissan ALMERA keeps everyone firmly in the safety zone.

### Safety Shield

In the commitment to "Real World Safety", Nissan pursues innovation as part of its Safety Shield concept. Based on the idea that cars should help protect people, advanced, proactive safety technologies help driver and passengers to avoid danger and injury in a wide range of circumstances. # TRIM

NISSAN'S commitment to quality: to provide all customers with a consistently high level of quality, NISSAN applies the standard worldwide, to ensure that all NISSAN owners enjoy peace of mind for the lives of their vehicles. The approach is based on quality from the customer's perspective on three key elements: 1. The expectation of a smooth driving experience with complete peace of mind. 2. The intangible appeal of a vehicle, its power to captivate and excite, with features that capture attention and imagination. 3. The level of attentiveness and service during the sales process, and long after the sale is concluded.
